April 2019

Volume 4

Family Technology Night was a hit. Parents and students used technology to practice perseverance and pursue higher level thinking skills. We also presented the most important pieces of internet safety for students as well as healthy practices for parenting in the digital world. Handouts from this event are available in the office.

Simmons choir students had the honor of singing at Garden Grove High School. This was a collaboration between GGHS choir and the elementary and middle schools who feed into GGHS. Our students got to see what they may sound like if they continue singing and become developed singers at the high school level.

Art in the Park: student and student produced art work that was featured in art at the park. Congratulations on being selected to represent Simmons at this community event
